```
<input type="date" />
```

12 / 25 / 2021 

```
<input type="time" />
```

12 : 30 PM 

```
<input type="datetime-local" />
```

12 / 25 / 2021 12 : 30 PM 

```
<input type="week" />
```

Week 51, 2021 

```
<input type="month" />
```

December 2021 

```
<input type="range" />
```

```
<input type="hidden" />
```

A hidden field is not visible to a user, it let web developers include data that cannot be seen or modified by users when a form is submitted.

A hidden field often stores what database record that needs to be updated when the form is submitted.
